

Election of 2027 Officers

All members will receive an email by October 19 that will connect you to the ballot for the election. Voting is very simple, but [here's a full description of how it's done](#).

AZPCA Board Candidates

President: Steve Brenner, Steve Sapareto

Vice President: Bill Stubbs

Director at Large (two chosen): Jeanne Snyder Baker, Steve Jackson,
Lee Martucci, Steve Shain

Candidates for President

STEVE BRENNER - I am respectfully announcing my candidacy for President of the AZPCA.

I have now been a member of the AZPCA for three years. I have organized 9 driving tours over the last two years and have written several articles for the *Going Places* monthly publication.

I enjoy the process of being an integral part of the AZPCA. I know that the events we provide could not exist without the help of our leaders. I have enjoyed working with everyone at the AZPCA and I see the commitment that everyone brings to the table. I want to be a continued part of that process

From my previous work in the software industry as a Project Manager and Specialist I understand the leadership and teamwork it takes to always be at your best. For the opportunity to be President of the AZPCA, I would always be at my best and help our team deliver the best experience possible for our members.

As a personal philosophy, I know that you can view certain organizations as great but it's really the people behind the organization that make it great. We already have so many great people at the AZPCA and I would embrace the opportunity to be President and help maintain our standard of excellence.

Thank you in advance for your consideration.

STEVE SAPARETO - I am a semi-retired Medical Physicist and have been active in the PCA for over 30 years. I have been President of the Southern Arizona Region and twice President of the Arizona Region and been on the Board of Directors as a Director at Large.

I have been an editor of *Going Places* and have organized Flight twice. I have been an instructor for DE including setting up our first classroom program for DE.

I have organized many tours over the years including Hot Air Tours to New Mexico and Off-Road tours. I currently own six Porsches (but only 4 are running).

I believe my historic experience would be of benefit to the club and would be honored to serve again. My primary goal as President would be to continue to provide more opportunities for all members to participate in as many events as possible.

Candidate for Vice President

BILL STUBBS - Hello friends. I am honored to run for Vice-President, Arizona Region, Porsche Club of America (AZPCA) for the 2027-2029 term.

I have been an AZPCA member for more than four years. After my first year, I was appointed Assistant Registrar for Motorsports events, providing valuable insight into Board operations while allowing me to meet many of our members.

I also served as the event coordinator's right-hand man for the All-Porsche Grand Display, helping automate operations and coordinate with the Town of Carefree. In 2025, I was appointed Concours Chairman, where Flight 47 attracted 92 cars and was successfully completed on budget, and am now Flight 48 Concours Chair.

Professionally, I am retired but continue consulting in the semiconductor industry. As a Mechanical and Software Professional Engineer educated at Cal Poly-San Luis Obispo, my career has spanned petroleum, aerospace, industrial, and semiconductor industries, including serving as Global Product Manager for ultra-high-purity gas distribution systems used worldwide.

Personally, I have been passionate about cars since my teenage years, owning, building, and restoring everything from muscle cars and motorcycles to off-road vehicles, sports cars, and boats. If it has an engine, I've probably worked on it.

I believe AZPCA's future is bright. My priorities are attracting younger enthusiasts, embracing technology, expanding the events members enjoy, and continuing to strengthen our outstanding driving tours, DE, AX, Concours, Porsche & Pancakes, Holiday Party, and Ladies' Events.

My philosophy is simple: AZPCA exists for its members. Our resources should deliver the greatest possible value, exceptional experiences, and responsible stewardship of every club dollar.

I would be honored to earn your vote as your next AZPCA Vice President.

Candidates for Directors at Large (Choose Two)

JEANNE SNYDER BAKER - Ever since Mark Baker brought me to my first monthly meeting in 2018, I have been continually impressed with the active, welcoming, and engaging nature of this club. We have incredibly dedicated volunteers, and the sense of community and enthusiasm among our members is truly something special.

I believe that the more we become involved in leading and supporting events, the more rewarding our experience becomes. It has been a joy to help create and administer memorable gatherings for our members, and I especially value the opportunity to encourage and welcome new members into active participation.

My 45 years in independent school education provided many opportunities to take on leadership roles and serve on regional and national governing boards. In addition, I have spent ten years volunteering with Bob's Free Bikes, reinforcing my commitment to supporting charitable efforts whenever possible.

I have greatly enjoyed assisting in the organization of club events, and I hope that my experience, energy, and perspective will make a meaningful contribution to the Board. Thank you for your consideration.

STEVE JACKSON - Having been an active member of the region since 2015, I am eager to transition my passion for the marque into a structured leadership role that serves our general membership.

The role of a Director-at-Large demands adaptability, collaboration, and a willingness to spearhead special projects that support the club's evolving needs. My unique background perfectly aligns with this mandate. On the track and road, my garage reflects the full spectrum of our club's enthusiast base—spanning the daily-driver utility of my Macan GTS to the pure high-performance dynamics of my 911 Carrera and Turbo S platforms.

Professionally, I bring 35 years of executive experience as the owner and operator of a long-term care facility in Washington State. Managing every aspect of that business taught me how to navigate complex regulatory compliance, oversee substantial budgets, mitigate risk, and lead diverse teams.

This deep operational blueprint allows me to offer the AZPCA Board immediate capability when vetting vendor contracts, optimizing regional event budgets, and ensuring risk-management protocols are flawlessly executed. I am fully prepared to dedicate my time, strategic perspective, and business acumen to maintaining the high operational standards of Zone 8. Thank you for your time, consideration, and ongoing dedication to our region.

LEE MARTUCCI - An old African Proverb says, “If you want to go fast, go alone. If you want to go far, go together.”

The suggestion here is to go together so we go far. However, if you’re like me, sometimes you want to go fast (e.g. Track Day) and sometimes you want to go far (e.g. tour drives). Both are fun and in this club you can pick one or the other... or both! That’s what I love about the AZPCA and the fact that we get to share our enthusiasm for these beautiful cars and make new friends.

A little about my background: I grew up back east (primarily PA) and always loved cars. While in school I had a picture of a red 911 Turbo over my desk as motivation to work hard! I attended Lehigh University on a wrestling scholarship and graduated with a degree in marketing. I spent the next 44 years in the building materials business where I held several leadership positions in sales and marketing. I recently retired and enjoy staying active including PCA events, golf, travel, and volunteering.

I joined the AZPCA in December of 2024 and my wife Trina and I try to attend as many events as possible. I currently drive a Dark Blue Metallic 2015 Boxster S and I’m already thinking about my next Porsche.

As for the Director-At-Large position, I believe my background in Sales & Marketing together with my creative and organizational skills would serve the club well. I appreciate your support and let’s keep making the club better and stronger!

STEVE SHAIN - Since joining AZPCA in 2022, I have enjoyed being part of a community that shares a passion for Porsche, driving, motorsports, and the friendships that develop through our club activities. The experiences I’ve had with fellow members have inspired me to give back by serving on the Board.

My Porsche journey has included ownership of a 2021 Gentian Blue 911 Carrera 4S Manual, a 2022 Guards Red 911 Carrera GTS, a 2025 Metallic Volcano Grey Macan GTS, and my current 2023 Racing Yellow 911 Carrera GTS, which I have personalized with performance and appearance modifications.

Through these vehicles and club events, I have developed an even greater appreciation for the enthusiasm, knowledge, and camaraderie that make our club exceptional.

Professionally, I served as Chief Operating Officer of Southwest Automated Security, a successful wholesale distributor specializing in access control, CCTV, perimeter security, and gate operators. I retired in 2021 and currently serve as a member of the company’s Board of Directors, where I help guide strategic planning, operations, and long-term growth.

These experiences have strengthened my leadership, decision-making, and collaborative skills—qualities I would bring to the Director-at-Large position. My passion for motorsports extends beyond Porsche ownership. For more than 12 years, I served as a course observer for CART, INDYCAR, IRL, SCCA, and IMSA events at Phoenix International Raceway, and numerous racetracks continentally and Internationally, gaining firsthand experience with the dedication, teamwork, and attention to detail required to support world-class racing events.

As Director-at-Large, I will work to represent the interests of all members, encourage participation in club events, support new member engagement, and help ensure that AZPCA continues to grow and thrive. I am committed to listening to members, fostering an inclusive and welcoming environment, and supporting the Board in delivering outstanding experiences for Porsche enthusiasts throughout Arizona. I would be honored to earn your support and the opportunity to serve our club.
